

SubmissionIQ

Maximize Your Underwriting Edge

With growing volumes and ongoing evolution in the insurance value chain, commercial P&C carriers and MGAs must lean on data and technology to identify avenues for sustainable, profitable growth.

Enter SubmissionIQ. Designed to enhance team productivity and business performance, the next-gen underwriting workbench collects, organizes and enriches information from submissions, fueling the underwriting workflow and beyond with comprehensive insights to prioritize, analyze and write business.

The Result?

- ✓ Improved speed to market and win rate
- ✓ Greater accuracy and trust in the data behind decisions
- ✓ Real-time information to explore growth opportunities
- ✓ A happier, more productive workforce

The Underwriting Workflow, Reimagined

The purpose of SubmissionIQ is simple: create a systematic underwriting process that delivers the right data, to the right people at the right time. Here's how we do it:

Complete Submissions Quickly and Confidently

Triage

Leverage a data-rich triage experience to complete submissions and prepare for placement and underwriting analysis.

- ✓ Submission Ingestion
- ✓ Third-Party Data Enrichment
- ✓ Prioritization

Win More of the Right Business

Risk Placement & Analysis

Systematically determine the optimal place for submissions, easily export data and access a predictable view of risk for underwriting analysis.

- ✓ Data Mapped to Excel Rater / PAS
- ✓ Route to External Markets
- ✓ Risk Visualization

Surface Business Intelligence in Real-Time

Performance Management

Real-time access to the entirety of your underwriting data to help facilitate targeted, profitable new business growth.

- ✓ Distribution Analytics & Tearsheets
- ✓ Pipeline & Operational Analytics
